Justin S. Allen

jallen438@gatech.edu

Objective

Motivated electrical engineering student seeking an internship in circuit design and technology. Hands-on circuit experience and critical-thinking skills support effective technical problem-solving. Proven leadership and adaptability strengthen performance in collaborative environments. Curiosity and initiative drive meaningful contributions and continued technical growth. Seeking internship for summer 2027

Education

Georgia Institute of Technology | Atlanta, GA *August 2026 – Present*
Bachelor of Science in Electrical Engineering, Clark Scholar Expected Graduation, May 2030

Benjamin E. Mays High School | Atlanta, GA *August 2022 – May 2026*
Salutatorian, GPA 4.33, Gates Scholar

Skills

Programming: Python (novice)
Platforms: macOS, Windows
Software: IDLE, VS code, streamlit
Professional Organizations: National Society for Black Engineers
Communication: Public speaking, group presentations, team collaboration, professional writing

Experience

Tidal Wave Auto Spa | Atlanta, GA *August 2025 — July 2026*
Team Lead

- Supervised, trained, and onboarded 12 team members, strategically delegating responsibilities and reinforcing protocols.
- Developed communication and time-management skills while balancing school with customer-facing employment.

Technology Student Association | Atlanta, GA *August 2023 — May 2026*
(President)

- Directed chapter operations for over 40 members by coordinating meetings and delegating responsibilities.
- Lead preparation for technology competitions, strengthening collaboration, engagement, and camaraderie.

Projects

TSA Electrical Applications |Technology Student Association *March 2024—March 2026*
Competitor / Electrical Applications Participant
Team-based competition applying electrical theory, schematic interpretation, circuit assembly, and measurement skills to complete technical challenges.

- Applied circuit-analysis and problem-solving skills to help the chapter qualify for the National TSA Conference for the first time in school history.
- Built and troubleshot breadboard circuits from schematics, ensuring accurate connections and reliable performance.

Relevant Coursework

ECE Discovery Practicum(In Progress): Engineering design, collaborative problem-solving, technical communication, and electrical engineering career exploration

Introduction to Computing(In Progress): Python programming, functions, conditional logic, debugging, and computational problem-solving

Activities

Nuremberg Cross-Cultural Exchange | Student Participant *October 2025*

- Strengthened cross-cultural communication and adaptability through international travel, host-family living, and collaboration with German students.

West Point Summer Leaders Experience | Participant *June 2025*

- Completed a weeklong leadership program, strengthening discipline, personal accountability, and adaptability in a structured military environment.

The Gates Scholarship Summer Institute | Scholar Participant *June 2026*

- Strengthened networking and professional communication skills through connections with fellow scholars and professional development activities in Phoenix, Arizona.
